

“Talk, touch and play come first” mug

A white ceramic mug for grown-ups in 11 oz and 15 oz, printed by sublimation. One side carries the Maker’s Seal; the other carries our tagline with the tomato ball as its period (brand/ORIGINALITY.md C1, kept but never trademarked, never on children’s items, never as a three-verb icon lockup).

Print files (partner-typical sizes, UNVERIFIED)

FILE	SIZE	NOTES
<code>print/mug-11oz_wrap.png</code> + .svg	2700 × 1050 px 9 × 3.5 in, 300 dpi	Seal centred at x = 585, slogan at x = 2115 (90° from the handle)
<code>print/mug-15oz_wrap.png</code> + .svg	2700 × 1200 px 9 × 4 in, 300 dpi	Seal at x = 540, slogan at x = 2160

FILL IN on setup day: the chosen partner’s mug template size and which half faces out with the handle on the right. Change **MUGS** or **SWAP_SIDES** in `build/build.py`, then run `bash build/render.sh`.

A food-contact item. The sample decides.

Food contact (UNVERIFIED until the partner's documents are on file).

- Use only the partner's own ceramic mug blank that the partner states is lead-safe for food contact. Ask for its lead and cadmium test report (US FDA ceramicware leach limits, and California Proposition 65) and keep it in [products/merch-mug/](#).
- Proposition 65: a business with fewer than 10 employees is generally exempt from the warning duty, but the partner or a marketplace may still require a warning for California shipments. Confirm with the partner; never write "lead-free" or "non-toxic" unless their report supports it.
- Only the partner's dishwasher- and microwave-safe rating is repeated in the listing, word for word. No metallic, glitter or color-changing mugs (usually hand-wash and no microwave).

Grown-ups only. Sold as an adult coffee or tea mug. Never marketed as a child's cup (children's products need CPSIA testing, which stays held).

Sample gate (full list in [QUALITY-STANDARD.md](#))

1. Order one 11 oz and one 15 oz.
2. Check print sharpness, the tomato and sky colors against the palette, and that the seal and line sit centred on each side.
3. Run 20 dishwasher cycles and 10 short microwave runs (as the partner rates it) on one mug; the print must not fade, peel or craze.
4. Record PASS or FAIL in [panel.md](#). No listing goes live before PASS.

PRICE AND PROFIT

Everyday prices, every channel over the floor

Floor: at least 30% margin on a print-on-demand sale (commerce/PRICING.md §2). The buyer pays the partner’s shipping rate at cost. Costs are typical partner costs, UNVERIFIED; fees as modeled across the repo, UNVERIFIED. Figures come from `build/pricing.py` .

SIZE	PRICE	PARTNER COST + SHIP	FLOOR	ETSY	GUMROAD	OWN SITE
11 oz	\$22	\$7.95 + \$7.99	\$6.60	\$9.65 (44%)	\$8.28 (38%)	\$11.78 (54%)
15 oz	\$25	\$9.95 + \$8.99	\$7.50	\$10.12 (40%)	\$8.62 (34%)	\$12.51 (50%)

Keep Etsy Offsite Ads off. An ad-driven sale would net about \$5.15 (11 oz) and \$5.02 (15 oz), under the floor. If the shop passes the level where the ads become mandatory, raise prices first.

No free-shipping price. Built-in shipping would need about \$29.53 for the 11 oz to keep the floor, above what buyers expect.

Highest partner cost that keeps the floor (11 oz / 15 oz): Etsy \$11.00 / \$12.57 · Gumroad \$9.63 / \$11.07 · own site \$13.13 / \$14.96.

Honest pricing: one everyday price per size. No “was” price, no permanent sale, no countdown, no “only X left” (print on demand never runs out).

YOUR PART

Founder choices, then the next step

Human authorship (commit each change to git)

FILL IN: your own line breaks for the slogan, which side faces out, and whether the 15 oz is worth listing. Edit the “Founder edits” block in build/build.py and run `bash build/render.sh`.

FILL IN: your own slogan ideas for a future mug. None may be printed until brand/ORIGINALITY.md keeps it.
