Start here

Five minutes of play and a little back-and-forth talk. That's the whole idea. No screens, no scripts, nothing to get right.

How to use the cards

- 1 Find your child's color.**
Each age has a color and a shape (see the key). Ages are a guide, not a rule.
- 2 Pick one card.**
Or let your child pick. Keep a few by the door, the tub or the toy basket.
- 3 Gather what you need.**
Almost every play uses things you already have at home.
- 4 Play, then try the talk tip.**
Say it once, then wait. Their look, sound or point is a turn.
- 5 Stay close and stop while it's fun.**
Five happy minutes beats twenty tired ones. Play it again tomorrow.

CARDS 40–52

Stories, simple games with rules and taking turns

Every child grows at their own pace. Play any card that fits your child today, younger or older. If you have questions about your child's development, your child's doctor is a good place to start.

The 8 talk moves on the cards

Pause and wait

Count to five in your head before you help. A look, a sound or a point is a turn.

Say what you see

Name what your child is looking at or doing, in short, clear words.

Repeat and add one

Say their word back and add one more: “ball” becomes “big ball.”

Offer a choice

Hold up two options and wait. Pointing is a real answer.

Follow their lead

Play what they choose, and talk about what they care about.

Sing and gesture

Add a tune, a clap or a hand sign. Two ways to join in.

Take turns

You go, they go. Back-and-forth is the whole point.

Wonder aloud

Say “I wonder...” instead of quizzing. Then wait and see.

Why play and talk? Little ones learn to talk by talking with you: a look, a sound, your answer, their turn. Play is full of those moments.

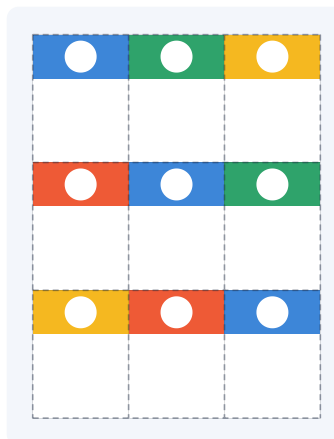

Try: “Your turn!” · “Tell me more.” · “What next?” **Talk, sing and read in the language you know best.** A sign, a point or a device tap counts.

Most children love 2–3 of these. Repeat the favorites and skip any your child doesn't enjoy. Tired day? Use the 2-minute versions.

BEFORE YOU PRINT

Print, cut and keep

- ✓ **Print at “Actual size” (100%).** Cards are standard poker size, 2.5 × 3.5 in (63.5 × 88.9 mm).
- ✓ **Use cardstock if you can.** Heavy paper or cardstock (65–110 lb / 176–300 gsm) feels like a real deck.
- ✓ **Edges cut off?** Choose “Fit” instead. The cards print a little smaller and still work.
- ✓ **Backs are optional.** Print the backs page on the reverse of a card sheet, flipping on the long edge. Test one sheet first.
- ✓ **Cut on the lines.** A paper trimmer is fastest. Grown-up keeps the pieces and does the cutting. No time? Use the no-cut pages today.
- ✓ **Make them last.** Laminate for sticky fingers. Keep them in a recipe box, a zip bag or on a ring.

9 cards per page · 6 pages · 54 cards
Prep: about 20 minutes to print and cut

✓ Safety basics built into every card

- A grown-up plays along and stays within reach, every time.
- Under 3: every object is bigger than a toilet-paper tube opening (about 1.25 in / 3.2 cm).
- Water play: a grown-up within arm’s reach the whole time. Tip the water out after.
- No balloons, no long cords or strings, and no choking-risk foods on any card.
- Check toys and boxes for loose parts, staples and tape before play.
- Grown-up keeps the pieces: the paper cards are for grown-up hands, not for mouths.
