DOWNLOADING

Use a web browser, not the shopping app. Apps often can’t save files. On a computer or in your phone’s browser, tap each file to save it.

Lost a file? Sign in on a web browser and open Purchases in your account. Your files stay there.

On a phone? After you tap a file, open it from your Downloads folder. To type in the blanks, a computer is easiest.

File won’t open? Try a free PDF reader, then download it again from Purchases.

PRINT SETTINGS

Print at **100% / actual size**, not “fit to page.” Use cardstock (65–110 lb / 176–300 gsm) for the cards. Print only what you need: the page guide is on page 8 of each main file. Double-sided backs are optional; the steps are on the same page.

Prep: about 15 minutes to print and cut every card with a paper trimmer, then use them again and again. No time? Print one sheet today.

TYPING IN THE BLANKS

The **color** files have type-in boxes on the blank cards, planners, blank labels, blank dividers and certificate. Open the file in a free PDF reader that supports fill-in forms (a computer is easiest), click a box, type, then save a copy.

What you can edit: text boxes and tick circles, yes. Fonts, colors and pictures, no. The low-ink files have the same blanks to write on by hand.
