Play today in three steps

1. Open the US Letter or A4 kit. Read **Quick start** (page 2) and the **teacher script** (page 4).
2. Print the tower blocks (pages 6–9) at 100%, or project the slides if there is no time to cut.
3. Play one round at circle time and count the tower together.

Printing tips

- Print at **100% / actual size**, single-sided. White cardstock lasts longest.
- On a phone or tablet? Save the files first, then print from a computer or a print shop.
- Short on color ink? Use the ink-saver files.

Your license

A **single-classroom license** covers one teacher and their class. A **site license** covers all staff at one named school, center or library site. Full terms are on kit page 24 and at playbeforepixels.com/license.

Good to know

- Every play follows our published safety rules: an adult leads every round, and with under-3s nearby nothing smaller than a toilet-paper tube opening.
