Fillable pages: every blank line and tick box can be typed into in a free PDF reader that supports forms, on a computer or a phone: names, dates, times, promises, zones, plan answers and the tracker. Printed wording, colors and pictures can't be changed. Every page also prints blank for writing by hand.

Start here, grown-ups

A first phone is a big step toward independence. This kit turns it into small steps you take **together**, with plenty of play along the way.

Set up in 2 minutes

- 1 Pick your starting page.** No phone yet? Start with the readiness checklist. Phone on the way? Start with the agreement.
- 2 Print or open the fillable file.** Type into the blanks, or print and write by hand.
- 3 Sit down together.** Snacks help. Let your child read the promises out loud and tick the ones you choose.
- 4 Post it.** The fridge-door plan and a sign or two go where everyone can see them.

Why this kit, in plain words

Big kids build independence by practicing it: planning an afternoon, keeping a promise, asking for help in person, owning a mistake and fixing it. A phone brings lots of new choices at once. Writing the agreement together, and filling the afternoons with things they enjoy, turns those choices into practice instead of arguments. There is no right age for a first phone; every family decides.

Three talk lines for any page

Ask, then wait.

Ask one question and count to five in your head. Let them finish the thought.

Say what you see.

"You planned that whole afternoon yourself."

Build on their idea.

"What would make that rule work better?" Then add one idea of your own.

Talk in the language you know best. Every language counts. A note on the fridge, a thumbs-up or a quick message counts as talking, too.

How the phone fits in

A few simple ideas hold the whole kit together.

Our big idea

A first phone is a step toward independence. In our home it is a tool for staying in touch and trying new things. It is never a prize, and never a punishment. When something goes wrong, we talk it through and figure it out together.

Four things that keep it calm

- **Never a prize, never a punishment.** Phone time doesn't grow or shrink with chores, grades or behavior. That keeps the phone from becoming the thing everyone argues about.
- **Screens have a spot in the day.** The same time and about the same length each day. You write it on the fridge-door plan.
- **Zones and times are for everyone.** Grown-ups park their phones at the table too. Kids notice.
- **Check in, don't check up.** A 5-minute talk once a month (page with 5 questions) keeps the agreement alive.

When something goes wrong

1 Pause.

Park the phone for now. Take a breath. Nobody is in trouble for telling.

2 Talk it through.

What happened? What did you notice? What could we try next time?

3 Re-read and adjust.

Read this agreement together. Change a line if it isn't working.

AGES 9–10

Start with the readiness checklist, the practice missions and the 30 afternoons. Many families wait on the phone itself; the practice still counts.

AGES 11–12

Let them lead: they read the promises, suggest one of their own and help set the zones. Review the agreement on their birthday.

If interest fades

Skip a week. Swap the tracker for a new colorway. Let your child pick the next afternoon. Tired day? Just say “phones at the charging spot, let's find something to do.” That counts.

FOUNDER'S NOTE · PLACEHOLDER

To be written by the founder in her own words (60–90 words) before release: why this kit exists and one real, everyday tip. This box is replaced, not printed as-is.

Print it, fill it, post it

About 5 minutes to print. Nothing has to be cut unless you want the signs.

Printing

- Print at **100% / Actual size**.
- **US Letter** file for the US and Canada; **A4** for everywhere else.
- Regular paper is fine. Cardstock (65–110 lb / 176–300 gsm) makes the signs sturdier.
- The **low-ink file** has white backgrounds and line art your child can color.

Filling in

- Open the PDF in a free PDF reader that supports forms, on a computer or phone. Tap a line to type.
- On a phone, save the file first, then open it in a PDF reader rather than a quick preview.
- Save, then print. Or print blank and write by hand; it works both ways.

Make it last

- Laminate the tracker and signs, or slide them into clear page protectors.
- A dry-erase marker works on both, month after month.
- Keep the signed agreement in a folder or on the fridge where everyone can find it.

Shopping list (printed once)

- Regular paper: about 10 sheets (the pages you pick)
- Cardstock: 2 sheets for the 8 signs (optional)
- 4 page protectors or laminating pouches (optional)
- 1 dry-erase marker · tape for the signs

Safety notes for the afternoon ideas

- Every afternoon idea follows our published safety rules and carries its own safety line where one is needed.
- A grown-up always knows where a child is going, with whom, and when they'll be back. Helmets on for bikes and scooters.
- Grown-ups handle knives, the stove, craft knives and tools. Keep small pieces like cards and puzzle pieces away from children under 3.

Only printing a few pages?

Most families start with these six: the agreement (pages 10–11), the fridge-door plan (page 18), the tracker (page 20) and the 30 ideas (pages 22–23). Everything else is there when you want it.

Good to know: this kit is parent education and family planning. It isn't medical or professional advice. For questions about your child's health or development, talk with your child's doctor.

Quick answers

The questions families ask most, answered before you have to ask.

What age is this for?

It's written for ages 9–12. There's no right age for a first phone; every family decides. The readiness checklist helps you see what to practice next.

Our child doesn't have a phone yet. Is it still useful?

Yes. Start with the readiness checklist, the 10 practice missions and the 30-day challenge. The agreement will be ready when you are.

Is this a contract with punishments?

No. It's a warm agreement you write together. The phone is never used as a prize or a punishment. When something goes wrong, you pause, talk and adjust.

What can I edit?

Every blank line and tick box is fillable: names, dates, times, promises, zones, plan answers and the tracker. Printed wording, colors and pictures can't be changed.

Does it work with any phone?

Yes. Nothing here depends on a type of phone, an app or a company.

How long does it take?

About 30 minutes to fill in the agreement and plan together, then 5 minutes a month to check in.

What if a promise keeps getting broken?

Talk about what makes it hard, then change the setup, not the child: move the charging spot, try a practice mission, or rewrite the line together. The agreement is meant to change as they grow.

Does it work for tablets and game consoles too?

Yes. The zones, times and fridge-door plan work for any screen in the house.

Can a second home use it?

Yes. Print a second fridge-door plan for the other home. The license covers your own family's homes.

Is this medical or professional advice?

No. It's parent education and family planning. For questions about your child's health or development, talk with your child's doctor.

Lost a file? Your files stay on your Etsy Purchases page. Open it in a web browser, not the app, to download again anytime.

License: personal and family use in your own home. Please don't share or resell the files.

Are we ready?

Not a test. There’s no score and no right age. Tick together, then pick two things to practice next.

Our big idea

A first phone is a step toward independence. In our home it is a tool for staying in touch and trying new things. It is never a prize, and never a punishment. When something goes wrong, we talk it through and figure it out together.

MY PROMISES · WE TICK THE ONES WE CHOOSE TOGETHER

Where my phone lives

- ☐ My phone sleeps at its charging spot, outside my bedroom, at night.
- ☐ I park my phone at meals and family time.
- ☐ I keep my phone in its case and look after it.

Kind and honest

- ☐ I only send words I would say to someone's face.
- ☐ I ask before I take or share a photo of someone.
- ☐ If a group chat turns unkind, I don't join in, and I tell a grown-up.

Private stays private

- ☐ My passwords stay between me and my grown-ups.
- ☐ I don't share my address, school or where I am with people I haven't met in person.
- ☐ I only chat with people I know in real life.

Ask first

- ☐ I ask before I download anything new, even free things.
- ☐ I ask before I buy anything.
- ☐ I ask before I join a new group or sign up for anything.

If something feels off

- ☐ If I see something weird, unkind or too grown-up, I tell a grown-up.
- ☐ If anyone asks me to keep a secret from my grown-ups, I tell a grown-up.
- ☐ I can call home any time, from anywhere.

Eyes up, life first

- ☐ I look up when I'm walking, crossing streets or talking to someone.
- ☐ Friends in the room come first.
- ☐ I keep making time for play, outside time and the things I love.

My own promise: _____

Grown-up promises, and how we fix things

My grown-ups promise

☐ If you tell me something went wrong, I'll thank you first. You won't be in trouble for telling.

☐ I'll follow our phone-free zones and times too.

☐ I'll tell you before I change a rule, and why.

☐ I'll notice what you do well, and say it out loud.

☐ I'll answer your questions calmly, even the tricky ones.

☐ I'll ask before I share photos of you.

☐ We'll look at the phone together sometimes, openly.

☐ I'll keep making time to play and talk with you.

Our own grown-up promise:

30 Phone-Free Afternoons

A month of afternoons that belong to your big kid: build, ride, cook, invent, explore. No phone yet? Do it anyway; it's great practice for planning your own time.

Pick your hours

Choose a stretch after school, like 3:30 to 5:30. Write it on the tracker.

Phones park

Every phone in the house naps at the charging spot, grown-ups' too if they're home.

Pick an idea

Choose from the 30 ideas, or invent your own. Big kids can plan it themselves.

Color it in

Color the circle on the tracker each day. Missed a day? Just pick up where you left off.

Tired day?

Every idea has a 2-minute version. It still counts.

Tell us at dinner

One question at dinner: "What was the best part of your afternoon?"
