# 60 Visual Routine Cards • Starter Set

Thank you! Here's what each file holds and how to print and fill it in. About 20 minutes to prep one routine, then reusable.

Pick one file for your paper size. Each file holds 60 picture cards, second copies of the busiest cards, blank, word-free and photo-frame cards, 3 chart layouts (ready-made and blank) and a short grown-up guide.

## Printing

Print at **100% / Actual size** so cards stay 2.2 in (5.6 cm). Use white cardstock. Print only the pages you need: the Print guide near the front of each file lists every page. Landscape chart pages turn by themselves in most printers.

## Typing your own words

Open the PDF in free **Adobe Acrobat Reader** on a computer or phone and tap a line to type. You can type card labels, chart titles and names. Colors and pictures can't be changed. Save, then print, or print blank and write by hand.

## Downloading: use a browser, not the app

The Etsy app can't download files. Open Etsy in a web browser, go to You › Purchases and reviews, and choose Download files. On a phone, save each PDF to Files, then open it in Adobe Acrobat Reader. Your files stay on your Purchases page to download again any time.

## Safety in one line

A grown-up stays close and keeps the pieces. Print at full size, use no velcro dots with children under 3, and check dots before each play for older children. Every card follows our published safety rules.
