

Core merch

Two adult tees in four colors (the logo tee and “More talk, less tap”), a “Laps not apps” tote that only comes in gift bundles, and the inside-neck label and hang tag that carry the brand name on every order.

Adult sizes only

Print on demand

No inventory

Slogans: search before publishing

© 2026 AlphaPlay LLC. Play Before Pixels is a trade name of AlphaPlay LLC.
Version 1.0 · September 2026

Three design slots. Two are filled.

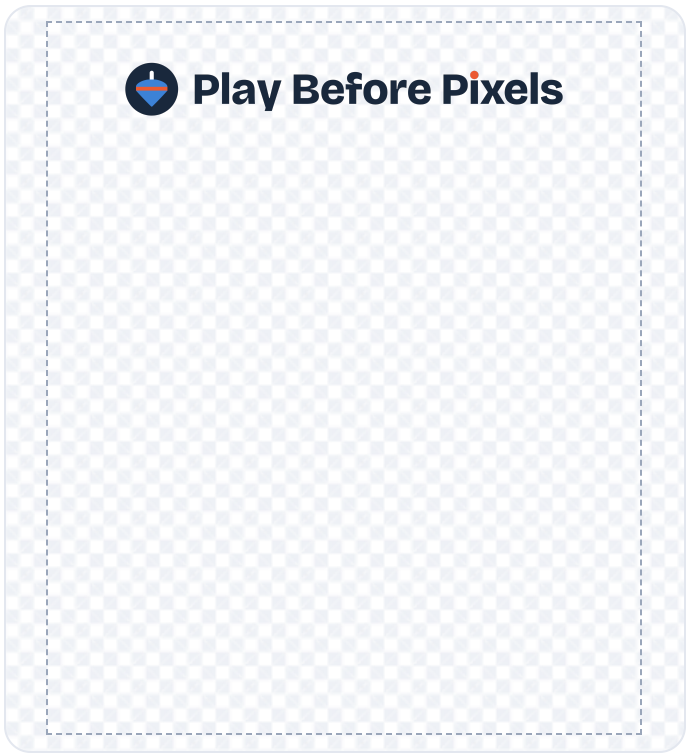

DEMAND-CHECK.md allows at most three adult designs, as identity merch rather than a merch line. brand/ORIGINALITY.md keeps exactly one slogan for a tee (“More talk, less tap”) and one for the tote (“Laps not apps”), so slot 3 stays empty on purpose.

ITEM	STATUS	FILES	EVERYDAY PRICE	SOLD ON
Logo tee design 1 of 3	Ready to set up	print/tee-logo_light and _dark (.png + .svg)	\$27 XS–XL \$29 2XL · \$31 3XL	Own site, Etsy, Amazon Merch on Demand
“More talk, less tap” tee design 2 of 3	Search, then set up class 25 + Etsy + Amazon check	print/tee-more-talk-less-tap_light and _dark	\$27 XS–XL \$29 2XL · \$31 3XL	Own site, Etsy, Amazon Merch on Demand
Slogan tee slot 3	Empty on purpose	slogan-slot/ template only	–	–
“Laps not apps” tote	Bundle add-on only	print/tote-laps-not-apps_light and _dark (logo-only fallback: tote-logo_)	+\$22 inside a bundle	Own-site bundles only
Inside-neck label	Fill in 2 fields	labels/ 7 sizes × light and dark	included	printed by the partner
Hang tag / pack-in	Optional	hang-tag.pdf (site and marketplace editions)	included	only if the partner offers it

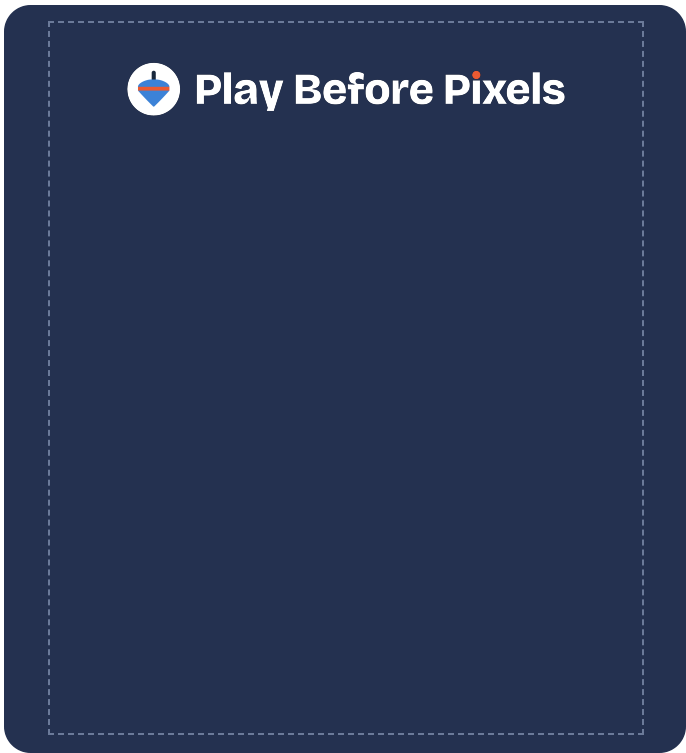

SIX RULES FOR THIS LINE

- **Grown-up sizes only.** No kids' tees or onesies: they need children's-product testing and a certificate (DEMAND-CHECK cut, CAMPAIGN-BIBLE [CPSIA]).
- **Print on demand only.** The partner prints and ships each order. Nothing is ever stocked, packed or shipped by the founder.
- **The logo comes from** brand/logo/ , **unaltered.** No retyping, recoloring, effects or new lockups.
- **™, never ®.** PLAY BEFORE PIXELS is not registered or filed yet.
- **Only slogans ORIGINALITY.md keeps for that item** (the build checks), searched before publishing, and never an event name.
- **No condition words** (diagnosis or condition terms, see BRAND.md) on merch, listings, tags or ads.

Front print files

tee-logo_light · ink P, tomato ball · for White, Natural and Mustard.
Dashed line = the 15 × 18 in canvas.

tee-logo_dark · paper P, tomato ball (the kit's reverse) · for Navy

SPEC	VALUE
Canvas	4500 × 5400 px, transparent PNG stamped 300 dpi (15 × 18 in). The .svg twin is pure vector (logo paths from the kit).
Artwork	Horizontal lockup, the kit's default. Ink about 10.5 in wide × 2.5 in tall, centered left to right.
Position	Ink starts about 1.2 in below the top of the print area, so it sits high on the chest. Check it on the partner's mockup: aim for 3–3.5 in below the collar seam (UNVERIFIED: on the partner's placement tool).
Colors	Ink #1D2940 · tomato #EE5A36 · paper #FFFFFF. Nothing else.
Size checks	Minimum print width for the lockup is 40 mm: this is 267 mm. The gaps around the ball print at about 4.5 mm (floor 1.5 mm).
Method	Direct-to-garment (DTG). For embroidery, use the kit's one-color files and its embroidery minimums instead: this file is not for stitching.

Four garment colors

Light garments take the full-color logo. Navy is the garment closest to ink, so it takes the reverse. Black, grass and plum garments are left out on purpose: the kit allows only white one-color logos on them, and they are off-palette.

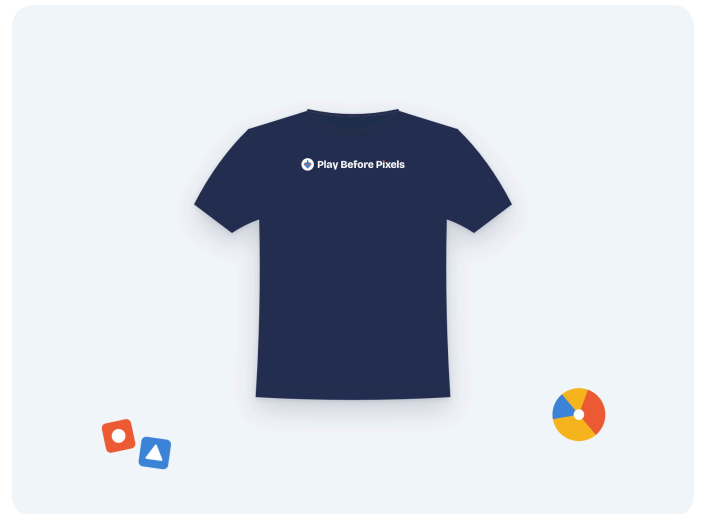

○ White · tee-logo_light

○ Natural · tee-logo_light

● Mustard · tee-logo_light

● Navy · tee-logo_dark

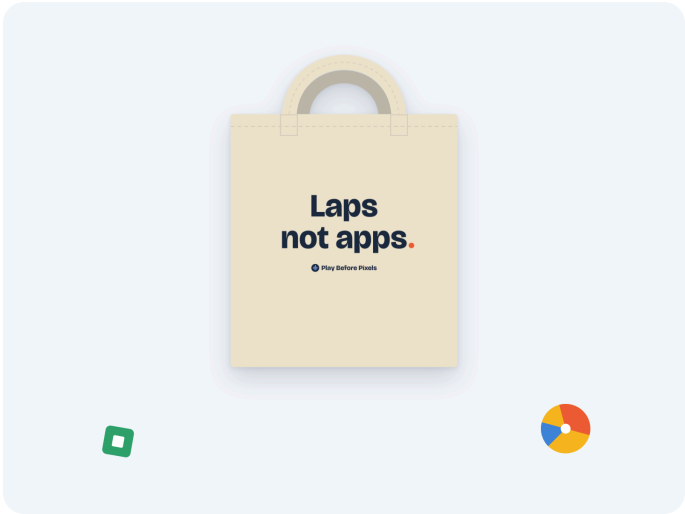

OWNER'S CHOICE (OPTIONAL) · HUMAN AUTHORSHIP

Confirm or change the four colors (use the partner's closest named color and check each against a physical sample). Your choices are part of your creative contribution: write them here and commit.

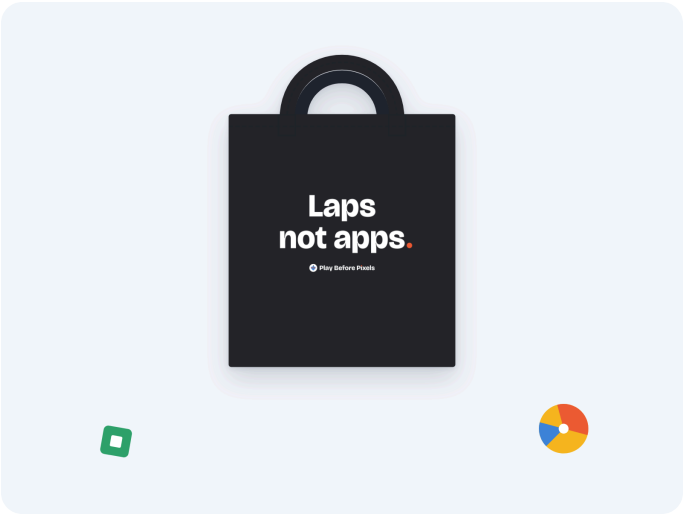

BUNDLE ADD-ON

“Laps not apps” tote

The tote is never listed on its own (DEMAND-CHECK: bundle-only). It is a +\$22 add-on inside own-site gift bundles.

Natural canvas · tote-laps-not-apps_light

Black · tote-laps-not-apps_dark

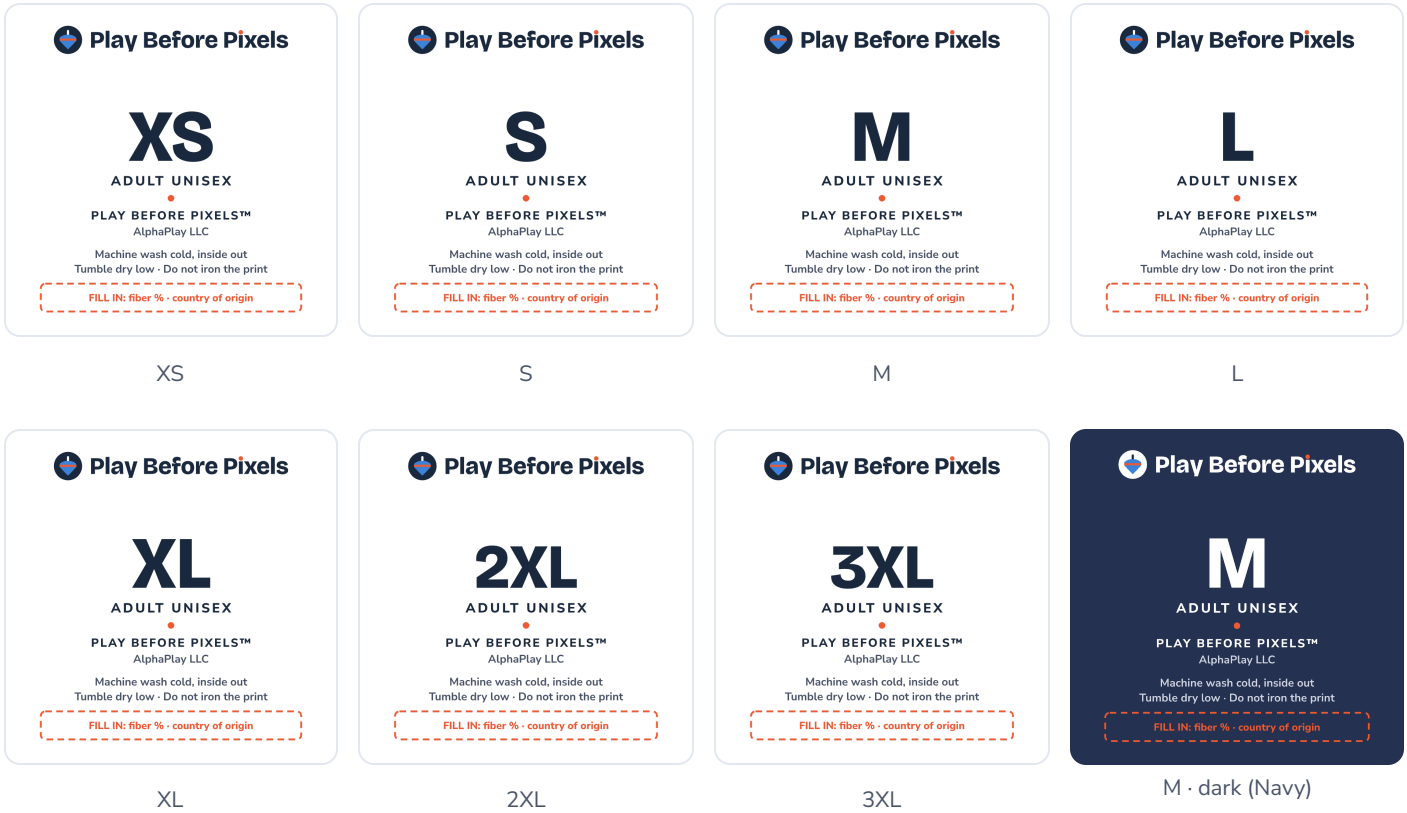

SPEC	VALUE
Canvas	3600 × 3600 px, transparent PNG at 300 dpi (12 × 12 in), plus vector .svg.
Artwork	“Laps not apps” in Bricolage Grotesque 800 with the tomato ball as the period (ORIGINALITY.md C4 keeps it for the tote), about 9 in wide, with the horizontal lockup 4.3 in wide below. Fallback if the slogan search finds a conflict: <code>tote-logo_light dark</code> , the stacked logo alone.
Where it appears	Holiday gift bundle (tee + tote + a digital play kit) and any later gift bundle. Teacher bundles stay on hold with all school-facing work.
Check	Tote print areas differ by blank: confirm the partner’s area and shrink the canvas if it is smaller than 12 × 12 in (UNVERIFIED).

BUNDLE MATH, THE HONEST WAY

Example: logo tee (\$27) + “Laps not apps” tote (+\$22) + a digital play kit, sold as one own-site checkout. Price the bundle 10–25% under the sum of its parts and say so in plain words (“\$X, or \$Y bought separately”). Never show the separate total as a crossed-out price. The print partner ships the tee and tote; the play kit arrives by email.

Inside-neck label

The brand name printed inside the neck is how clothing shows a trademark in use (a front logo alone can be seen as decoration). Every tee carries it.

SPEC	VALUE
Files	<code>labels/neck-label_SIZE_light dark</code> , 900 × 900 px (3 × 3 in at 300 dpi), .png + vector .svg (UNVERIFIED: against the partner's inside-label template).
On every label	Horizontal lockup · size · ADULT UNISEX · PLAY BEFORE PIXELS™ · AlphaPlay LLC (the business named on the label) · care · fiber and country of origin.
You fill in	Fiber content and country of origin come from the blank you choose. Type them into <code>BLANK</code> at the top of <code>build/build.py</code> and run <code>build/render.sh</code> . Until then the labels print a tomato FILL IN box, so they cannot go out by mistake. Check care wording against the blank's spec too.
ALPHAPLAY	These tees do not help the ALPHAPLAY filing: its clothing class covers sports pinnies only. Do not add ALPHAPLAY to the tee.

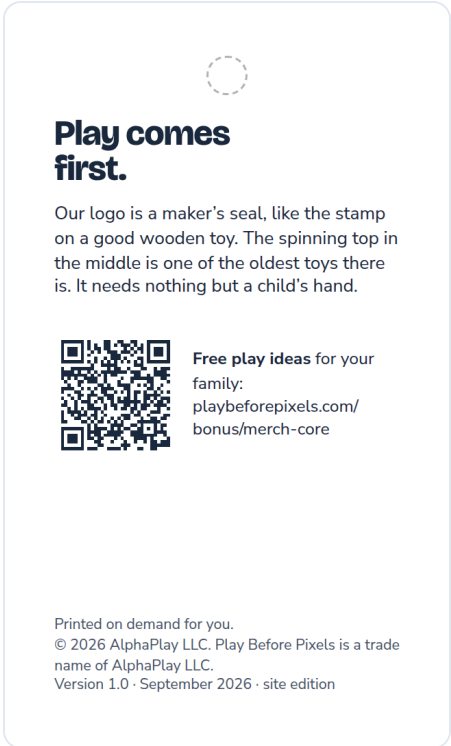

OPTIONAL

Hang tag and pack-in card

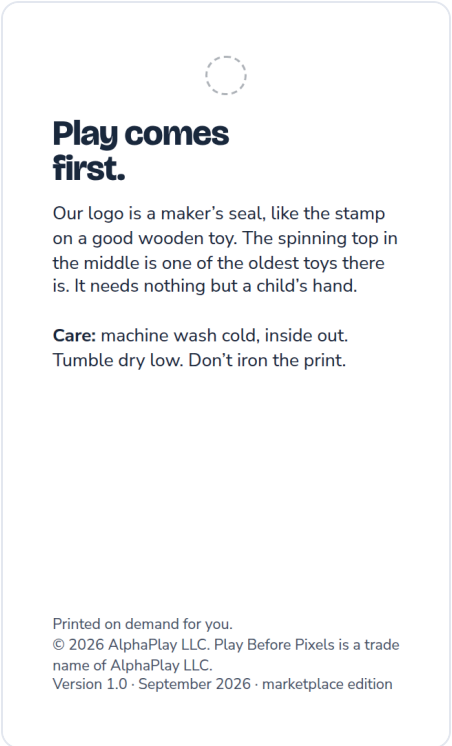

2 × 3.5 in, 0.125 in bleed on every edge, text 0.25 in from the page edge. Use it only if the partner offers branded hang tags or pack-in inserts (UNVERIFIED); otherwise it doubles as the gift note image on the product page.

Front · on sun: ink P, tomato ball

Back, site edition · QR and short link to the free bonus

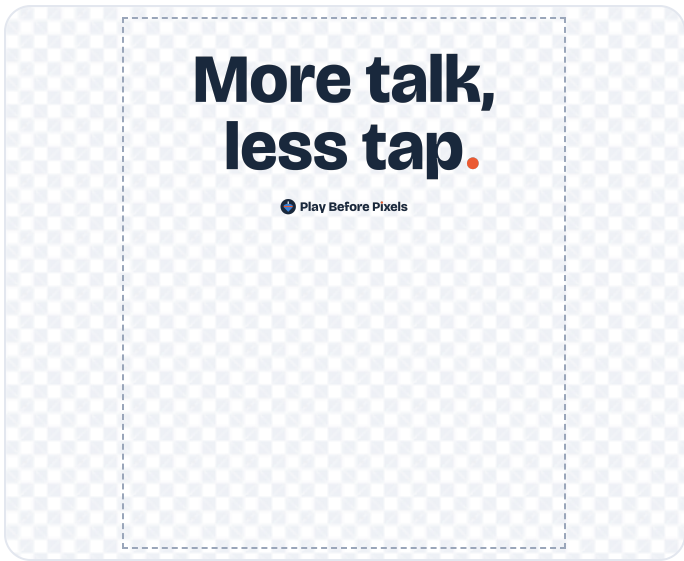

Back, marketplace edition · no URL or QR (Etsy)

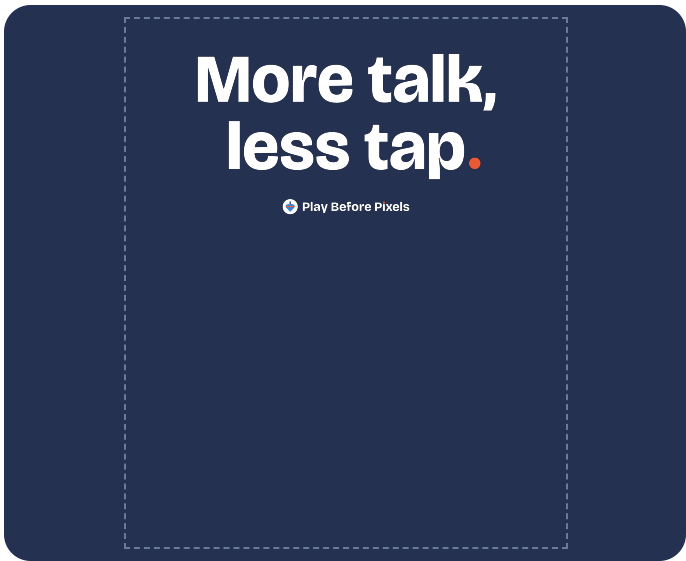

The dashed circle marks where a hole would be punched; it is a guide for the printer, not art. Print file: **hang-tag.pdf** (page 1 front, page 2 site back, page 3 marketplace back).

WHERE THE ORDER COMES FROM	WHICH BACK	WHY
playbeforepixels.com	Site edition (QR + short link)	Every product leads to the free bonus and the next product.
Etsy	Marketplace edition	Etsy editions carry no URL or QR (customer-voice rule 2); Etsy does not allow sending buyers off-platform.
Amazon Merch on Demand	None	Amazon prints its own packaging; no inserts.

“More talk, less tap” tee

tee-more-talk-less-tap_light · ink type, tomato ball · White, Natural, Mustard

tee-more-talk-less-tap_dark · paper type, tomato ball · Navy

SPEC	VALUE
Why this line	brand/ORIGINALITY.md C3 keeps it “for tee and copy”, and its merch list names exactly this tee. Never trademark it (™ goes on the brand name only).
Artwork	Bricolage Grotesque 800, outlined, about 11 in wide; the tomato ball is the period. Horizontal lockup 4.3 in wide below it. 4500 × 5400 px, 300 dpi, transparent, plus vector .svg.
Before publishing	USPTO class 25 search plus Etsy, Amazon and Redbubble searches for the exact phrase (ORIGINALITY.md 4b). Log the result. If a live clothing use turns up, pull this design.

Slot 3 stays empty on purpose

No other line is kept for a tee. “Play first. The pixels will keep.” is copy only; the tagline never goes on children’s items; these are retired: “Pencils before pixels”, “Childhood can’t wait. Screens can.”, “Paper first”, “Screen-free and proud of it”, “Ask me what I built today”. To fill slot 3: write the line yourself, run the originality check, have ORIGINALITY.md keep it “for tee”, add it to **SLOGANS** in build/build.py and run build/render.sh. The build stops on anything else.

OWNER'S SLOT (OPTIONAL) · LAYOUT CHOICES AND SLOGAN IDEAS

Putting it on sale

1. **Pick one print partner** (Printful, Printify or Gelato, per `commerce/storefront-setup-guide.md`) that offers DTG on all four colors, inside-neck label printing, and both Etsy and the site's store integration.
2. **Pick one mid-weight unisex cotton blank**. Save its size chart. Fill in fiber and origin in `build/build.py`, then run `build/render.sh`.
3. **Create the tees**. Logo tee: upload `tee-logo_light.png` to White, Natural and Mustard and `tee-logo_dark.png` to Navy. Slogan tee (after its search): the same with `tee-more-talk-less-tap_light|dark.png`. Sizes XS–3XL. Match the placement on pages 3 and 8.
4. **Add the labels**, light files for light colors and dark files for Navy, one per size. If labels are not offered, remove the label panel from listing image 4 before listing.
5. **Order one sample per color**. Check print, colors, label and fit, wash one five times, and photograph it on a flat surface (faceless: hands at most).
6. **Etsy**: list the partner as your production partner, mark the item “Designed by” you, disclose the digital and AI tools used for the art, add the size chart, and upload the seven listing images in order (`listing-01...07` for the logo tee, `slogan-01...07` for the slogan tee).
7. **Own site**: the same listing, plus the tote bundle and the “Next for you” links (see `listing.json`).
8. **Amazon Merch on Demand**: apply; upload the same 4500 × 5400 files with brand “Play Before Pixels”. Approval and design-slot limits apply (UNVERIFIED: current terms).
9. **Money and tax**: give the partner your resale certificate, set the shipping profile, and write the returns line (the partner replaces misprints and damage; you decide on size exchanges).

Runs without you: orders go straight to the partner; tracking and delivery emails are automatic; the FAQ in `listing.json` answers sizing, care, timing and returns.

What buyers ask (already answered in `listing.json`)

Do you make kids' sizes?

No. Adult unisex XS–3XL only.

How long does it take?

Each tee is printed when you order, then shipped with tracking.

How does it fit?

Unisex fit; measure a tee you love and match the chart.

Can I buy the tote?

It comes only inside gift bundles on our site.

Prices and money

ITEM	EVERYDAY PRICE	PARTNER COST	KEEP PER SALE
Logo tee XS–XL	\$27	fill in from the partner, with label	aim for \$8 or more after fees
Logo tee 2XL	\$29	fill in	same target
Logo tee 3XL	\$31	fill in	same target
“More talk, less tap” tee	same as the logo tee	fill in	same target
Tote (bundle only)	+\$22 in a bundle	fill in	same target
Holiday gift bundle	\$59 with a tee	tee + deck/print costs	planned bundle (DEMAND-CHECK #8)

Bigger sizes cost the partner more, so they cost more here. Etsy fees are roughly a 6.5% transaction fee, payment processing and a listing fee (UNVERIFIED: current rates). If a tee keeps less than \$8, raise the everyday price before launch, never by “discounting” later.

NEVER

- A crossed-out or “was” price
- A permanent sale or countdown
- “Only 3 left”: print on demand never runs out

FINE

- A real launch week that really ends
- Black Friday, if it truly ends
- Bundles 10–25% under the parts

When it sells

- **Late October:** list with the holiday gift bundle. Check the partner's holiday order cut-off dates (UNVERIFIED).
- **March:** spring screen-free week season. Say “spring screen-free week” in plain words; never print or claim the event's name.
- **Kill rule:** fewer than 5 sales in 60 days with the listing fixed: reprice once, then make it bundle-only.

Checks and launch list

Done in this build

- Tee files 4500 × 5400, transparent, 300 dpi, light + dark
- Tote files 3600 × 3600, transparent, light + dark
- Logo placed from brand/logo unaltered; lockup above its minimum size
- Label and tag carry PLAY BEFORE PIXELS™ (™, not ®)
- Adult sizes only; only slogans ORIGINALITY.md keeps; no condition or event words
- Etsy images carry no URL or QR
- Copyright line and version on the book and tag

The founder does

- ☐ Fill in fiber and origin; rebuild
- ☐ Class 25 + Etsy + Amazon + Redbubble search for both slogans; log it
- ☐ Order one physical sample per color; wash-test one
- ☐ Approve the sample photos and the cover image
- ☐ Written QA pass on the listing text
- ☐ Logo checks before public use: reverse-image search, USPTO design-code search, attorney knockout (logo guidelines, page 9)
- ☐ Insurance in place before the first sale (protection plan)
- ☐ Keep dated order records and label photos as trademark evidence

Printer templates change. Check every file against the chosen partner's current template and placement tool before upload.

HONEST AUTHORSHIP

The logo art was drawn with AI-assisted tools. Answer every platform's AI question truthfully (Etsy asks), and never register AI-made art as your own work.

Your own contribution is the part you can protect: your color choices (page 4), your slogan layout and slot-3 line (page 8) and your dated edits to the logo's build numbers. Commit each change to git so it is provable.
